

SPREHN A/S

www.sprehn.as

Virksomheden Sprehn startede helt tilbage i 1893 med at forarbejde værktøj til murer- og entreprenørfagene på en i dag ukendt adresse på Istedgade i København. Sprehn har gennem tre generationer været et familiefortagende, men efter Charles Sprehns bortgang blev firmaet solgt til anden side.

I dag er vi den største danske producent af værktøj til håndværkerfagene – gennem en kombination af egenproduktion og produktion via underleverandører. I takt med det stigende salg har vi etableret et større samarbejde med diverse underleverandører.

Vi har bibeholdt vores smedeværksted, hvor vi stadig smeder mejsler og fremstiller værktøj. Vi er i dag den største engros-leverandør af murer- og brolæggerværktøj i Danmark. Vi anvender kun råmaterialer af den allerhøjeste kvalitet, lige fra

de forskellige stålmaterialer til udsøgte træsorter. Alle produkter fremstilles i den brugsrigtige form og i en meget høj kvalitet, der holder til langvarigt brug. Hos Sprehn er alle produkter udviklet af håndværkere til håndværkere.

I 2005 måtte vi efter 50 år på Islevdalvej sande, at vi var løbet tør for plads og flyttede derfor til nye og større lokaler på Nyholms Alle i Rødovre, hvor vi nu har valgt at fokusere mere på lager og ekspedition. Det er vores målsætning, at enhver ordre skal kunne leveres omgående.

Sideløbende med vores egne kvalitetsprodukter har vi ligeledes import af andre mærkevarer samt af varer fra vores egne underleverandører.

Godt dansk håndværk kræver godt dansk håndværktøj. Det er Sprehn A/S kendt for gennem generationer.
